----- Tear Off and Keep -----

Date of Members' Showcase: October 9, 2024

According to Probus By-Laws, we may not conduct any business until the meeting has come to an official close. All displays must be covered until the meeting is over. You must provide a sheet, tablecloth, etc., for that purpose. There are none available at the Portuguese Club.

There is no WIFI at the Portuguese Club. If you require data to conduct your sales transactions, you need to provide your own.

There is limited access to power supply. If you use an extension cord, you must tape it to the floor with duct tape or gaffer's tape. You need to bring the tape with you.

Have a healthy float of small bills and coins. Consider your pricing - keep the math simple!

You may wish to talk to your insurance broker regarding an extension of your home owner's policy to cover your product for the day.

You are responsible for your decor. Be prepared with a couple of tablecloths to cover the plastic table and your display.

You are responsible for your own set up and take-down. The Portuguese Club will be open at **8:30 am**. You must have completed your set up and covered your display by **9:15 am**. You may bring a non-Probus helper to assist you, but the helper may not attend the meeting. The helper may return once the business portion of the meeting is over.
